## Product highlights

### Deep penetrating Infrared warmth

*Infrared light has been proven to effectively relieve aches and pains caused by muscular pains and stiff joints. The comfortable warmth created by infrared light penetrates deep into your skin, increasing blood circulation and warming your muscles. As your muscles are soothed, they automatically loosen up and relax. At the same time, the increased blood circulation helps your body get rid of impurities and quickly sends oxygen-rich blood to stressed or aching muscles, bringing effective pain relief.*

### 200 Watt Infrared halogen lamp

*The Philips InfraCare HP 3621 has been optimised for effective relief of pains in areas covering 20x30 cm, such as a shoulder, an elbow, a calf, or the neck. The InfraCare features innovative infrared halogen lamp technology. The special optics, filter and the powerful halogen lamp of 200 Watt have been optimised to provide a clear focused treatment and a now 3 x more comfortable warmth, as the infrared warmth is more equally divided over the treatment area.*

### Adjustable angle

*The appliance can easily be positioned upto 40 degrees backwards.*
